

Download Evidence, Explanation, And Realism

In literature, writers use realism as a literary technique to describe story elements, such as setting, characters, themes, etc., without using elaborate imagery, or figurative language, such as similes and metaphors. Scientific realism is the view that the universe described by science is real regardless of how it may be interpreted. Within philosophy of science, this view is often an answer to the question "how is the success of science to be explained?" Evidence, broadly construed, is anything presented in support of an assertion. This support may be strong or weak. The strongest type of evidence is that which provides direct proof of the truth of an assertion. Realism: Realism, in philosophy, the viewpoint which accords to things which are known or perceived an existence or nature which is independent of whether anyone is thinking about or perceiving them.
