

Download Rethinking Climate And Energy Policies

This book calls for rethinking current climate, energy and sustainability policy-making by presenting new insights into the rebound phenomenon; i.e., the driving forces, mechanisms and extent of rebound effects and potential means of mitigating them. Bücher (Fremdsprachig) Wählen Sie die Abteilung aus, in der Sie suchen möchten. Johannes Buhl and José Acosta contributed two chapters to the publication "Rethinking Climate and Energy Policies", which was edited by Tilman Santarius (who was with the Wuppertal Institute until 2009), Hans Jakob Walnum, and Carlo Aall.
