

Download Technology As A Support For Literacy Achievements For Children At Risk

Introduction. Technology abounds in schools and homes. Literacy technologies such as CD-ROMs or DVDs have been available to educators and parents for at least the past 30 years. Technology can be viewed as an activity that forms or changes culture. Additionally, technology is the application of math, science, and the arts for the benefit of life as it is known. This full-color illustrated poster addresses parents' and teachers' concerns about children's reading readiness and progress. Includes milestones and warning signs indicating that children might be at risk for reading challenges from birth through age six. Literacy by 3. In 2014, HISD launched Literacy by 3, a districtwide, balanced approach to elementary school literacy with the goal of having every child reading and writing with fluency at or above grade level. - Technology As A Support For Literacy Achievements For Children At Risk
