

Download Circulatory System Review Guide

BLOOD VESSELS (ARTERIES, VEINS and CAPILLARIES) 1. The Circulatory System is known as a closed system because the blood is contained within either the heart or blood vessels at all times – always flowing in one direction. The path is the same –CIRCULATORY SYSTEM GAMES . Circulatory System Crossword Circulatory System Word Search The Heart Crossword The Heart Word Search The Heart Jigsaw Thorax Jigsaw Think about the parts of the human circulatory system. Where does blood need to flow? How does it get there? Use the waterproof construction materials you've gathered, along with scissors and tape, to design and construct a pump device that will move the colored water through a "circulatory system" constructed on top of the butcher-paper body. Combined with the cardiovascular system, the circulatory system helps to fight off disease, helps the body maintain a normal body temperature, and provides the right chemical balance to provide ... - Circulatory System Review Guide
