

Download Medical Parasitology

Parasitology is the study of parasites, their hosts, and the relationship between them. As a biological discipline, the scope of parasitology is not determined by the organism or environment in question but by their way of life. This means it forms a synthesis of other disciplines, and draws on techniques from fields such as cell biology, bioinformatics, biochemistry, molecular biology ... Niklaus Weiss, Ph.D., Swiss Tropical and Public Health Institute and Emeritus Professor of Medical Parasitology, University of Basel, Switzerland Joachim Pelikan, Ph.D., Swiss Tropical and Public Health Institute eLearning and Knowledge Management Tropical Parasitology: Protozoans, Worms, Vectors and Human Diseases from Duke University, Kilimanjaro Christian Medical University College.
