

Download Molecular Structure : Macromolecules In Three Dimensions

Molecular structure: Macromolecules in three dimensions by Robert J. Fletterick, Trina Schroer and Raymond J. Matela, Blackwell Scientific Publications, 1985. £19.80 (xiv + 196 pages) ISBN 0 86542 300 8

Molecular Structure: macromolecules in three - Molecular Structure: macromolecules in three dimensions. Blackwell Scientific where it is required to represent the primary structure of a macromolecule. representing nucleic acid structures, the models are so easy to handle and so instructive when applied to protein structures that I would recommend them to any student or research worker in molecular biology; they are undoubtedly good value for money. The book Macromolecules in Three Dimensions is most
