I read this a LONG time ago, and have kept it in my library to share with others in need. I recommend this book with qualification for mothers who are feeling stressed - the caveat is that the first 2/3 -3/4 of the book is a catalog of all the many elements of motherhood that cause stress - which can make it worse for sensitive people. Motherhood Stress: Finding Encouragement in the Ultimate Helping Profession [Deborah Shaw Lewis, Gregg Lewis] on Amazon.com. \*FREE\* shipping on qualifying offers. hardcover In all my wildest fantasies of motherhood, I never could have imagined all the joys of my reality; nothing prepared me for the rush of tender feeling I'd get when my nursing baby looked up into my eyes and grinned his first toothless grin. But my reality includes a lot of other thing that weren't a part of my dreams. Get this from a library! Motherhood stress : finding encouragement in the ultimate helping profession.
