ProMIS™ Neurosciences, Inc., headquartered in Toronto Ontario, and with offices in Cambridge Massachusetts, is publicly traded on the Toronto Stock Exchange (ticker symbol: PMN.TO) and OTCQB (ticker symbol: ARFXF). Stiff person syndrome (SPS) affects only about one or two in a million people. Being diagnosed with this very rare condition can leave patients and families with many questions and few answers. The Stiff Person Syndrome Center at Johns Hopkins' Department of Neurology can offer clarity, effective ... Eugene Williams is a former SVP at Genzyme, with senior roles integrating commercialization, drug development, and deal making. He is also an entrepreneur, as the founder and director of Adheris, which became the largest company in the patient adherence area. The Institute of Neuroimmunology and Multiple Sclerosis (INIMS) at the University Medical Centre Hamburg-Eppendorf (UKE) is headed by Prof. Dr. Manuel A. Friese and is dedicated to better understand the aetiology and pathogenesis of multiple sclerosis and other neuroimmunological diseases and to translate this knowledge into efficacious treatments. - Neuroimmunology Methods In Neurosciences
