Science Fair Project Abstract. An abstract is an abbreviated version of your science fair project final report. For most science fairs it is limited to a maximum of 250 words (check the rules for your competition). The science fair project abstract appears at the beginning of the report as well as on your display board. Almost all scientists...

SECTIONS OF AN ABSTRACT. The usual sections defined in a structured abstract are the Background, Methods, Results, and Conclusions; other headings with similar meanings may be used (eg, Introduction in place of Background or Findings in place of Results). Some journals include additional sections, such as Objectives (between Background and Methods)...In the section that outlines the impact of your research, you are moving away from the cold hard facts and toward a more speculative science. This is the section where you consider how your research might move forward and how it can influence other research and lives.
