Water Heater Parts Have you noticed that your hot water isn't getting quite as warm as it should or that it doesn't really get hot at all anymore?  
Original review: Sept. 24, 2018. My Kenmore hot water tank began leaking. I called Sears and was told that the one year warranty had expired. I researched Kenmore water heaters online and ...  
Manufacturer vs Brand. Before going further, I want to point out the differences between a water heater manufacturer and a water heater brand. The manufacturer is the company that takes materials or components to create (or manufacture) the water heater. - Sears Water Heater Manuals
