

Download Secondary Data In Statistics

Secondary data refers to data which is collected by someone who is someone other than the user. Common sources of secondary data for social science include censuses, information collected by government departments, organizational records and data that was originally collected for other research purposes. Primary data, by contrast, are collected by the investigator conducting the research. Occupational Employment and Wages, May 2017 25-2031 Secondary School Teachers, Except Special and Career/Technical Education. Teach students in one or more subjects, such as English, mathematics, or social studies at the secondary level in public or private schools. The Integrated Postsecondary Education Data System (IPEDS), established as the core postsecondary education data collection program for NCES, is a system of surveys designed to collect data from all primary providers of postsecondary education.
