A practical, research-based guide, *Teaching Reading to English Language Learners* gives ESL teachers and grade-level teachers the information and strategies they need to support second language literacy development with their Culturally Linguistically Diverse (CLD) learners, in addition to the program the school already has in place. Throughout, the authors guide teachers to modify literacy instruction to address both the assets and the needs of their English learners. This practical, research-based text is organized around the principles that reading and writing instruction for English learners begins with the student biography and focuses on meaning as its core. The authors consider the languages and cultures of English learners as resources to be used in teaching, not problems to be solved, and throughout the book they guide readers to modify literacy instruction to address both the assets and needs of their students.
