

Download Trauma Focused Cbt For Children And Adolescents Treatment Applications

Family & Children's Services is the place to turn for help if your child has been hurt by any type of child abuse or trauma. Girls and boys are cared for by a compassionate team of mental health professionals in our child-friendly offices. OUR MISSION is to improve the well-being of commercially sexually exploited children through the provision of high quality trauma-focused, evidence-based treatment to exploited children and their families and the training of professionals across child-serving systems to better recognize and respond to the needs of exploited children. Eye Movement Desensitization and Reprocessing (EMDR), developed by Francine Shapiro, is an evidence-based treatment and highly regarded as a trauma resolution method. EMDR activates the information processing system of the brain, and it works on several channels looking at images, beliefs, sensations, and feelings associated with the negative content related to the trauma. WORLD HEALTH ORGANIZATION (2013) Guidelines for the Management of Conditions Specifically Related to Stress. Geneva, Switzerland: Author. Trauma-focused CBT and EMDR are the only psychotherapies recommended for children, adolescents and adults with PTSD. - Trauma Focused Cbt For Children And Adolescents Treatment Applications
